

PräGlu

Manual fanbinder

The **PräGlu** is a manual fanbinding device for book blocks of different sizes.

The large working width of 650 mm even makes the binding of newspapers possible.

The block is inserted into the **PräGlu** with its back facing downwards to make sure that all pages are lying properly in the binding area.

Besides for fanbinding, the **PräGlu** can also be used as a multiple clamp for other works on the book block such as pulling staples.

The glue is applied at a comfortable working height of 92 cm to ensure a non-tiring working process for the operator..

Technical data:

Floor space: 50 x 71 cm

Height: approx. 92 cm

Weight: approx. 25 Kg

Book block sizes:

Block width: as of 120 mm

Block height: up to 650 mm

Block thickness: up to 82 mm

Delivery includes:

- 1 gluing clamp with large or small glue plates (to choose)
- 1 drying clamp to remove the block and hang it up to dry

Subject to technical alteration
