

PräSeco

Infrared-heated drying device

The **PräSeco** is a drying device with infrared heater to dry book blocks after fan binding. According to the working speed, the infrared heater may be adjusted to three different heat

levels to ensure a smooth or fast drying. When not in use, the device may easily be folded together and stored away to save floor space.

The basic frame is approx. 100 cm long. The optional extension frame extends the length up to 200 cm to take up to 20 drying clamps.

The metal housing of the heater is equipped with a cooling fan to cool down the outer casing.

Technical data:

Floor space: 60 x 120 cm

Height: approx. 135 cm

Weight: approx. 25 kgs

Power supply:
230 volts / 50 Hz / 2,02 kW
(single phase)

Delivery includes:

Basic frame, heater with cooling fan, 6 drying clamps

Optional:

Extension frame
(approx. 100 cm)

Subject to technical alteration.

The World of Bookbinding.
